

第81回 広島数理解析セミナー（2004年度）

Hiroshima Mathematical Analysis Seminar No.81

日時 : 11月12日(金) 16:30 ~ 17:30

場所 : 広島大学理学部 B707

講師 : Professor Jelena V. Manojlović (University of Niš)

題目 : Classification Schemes for Solutions of Half-linear Differential Equations

要旨 : The subject of this investigation is asymptotic classification of nonoscillatory solutions of half-linear differential equations

$$(HL) \quad \left[p(t) |x'(t)|^{\alpha-1} x'(t) \right]' + q(t) |x(t)|^{\alpha-1} x(t) = 0, \quad \alpha > 0.$$

I will provide classification schemes for oscillatory and nonoscillatory solutions of the equation (HL) according to the behavior of the following four integrals:

$$I_p = \int_0^\infty \frac{1}{p^{1/\alpha}(t)} dt, \quad I_q = \int_0^\infty q(t) dt$$

$$I_{pq} = \int_0^\infty \frac{1}{p^{\frac{1}{\alpha}}(s)} \left(\int_0^s q(\tau) d\tau \right)^{\frac{1}{\alpha}} ds, \quad I_{qp} = \int_0^\infty q(s) \left(\int_0^s \frac{d\tau}{p^{\frac{1}{\alpha}}(\tau)} \right)^\alpha ds.$$

Necessary as well as sufficient conditions for the existence of solutions with designed asymptotic properties are also provided.
