As an international workshop of JSPS Core-to-Core Program No. 18005:
"New Developments of Arithmetic Geometry, Motive, Galois Theory, and Their Practical Applications,"
we have a workshop "Motives, related topics, applications 2007" (MRA2007) at Hiroshima University.
This workshop is also partially supported by JSPS Grant-in-Aid for Scientific Research
No. 16204002, and No. 17340008.

Motives,
related topics, applications
