

An international conference on topology

Intelligence of Low Dimensional Topology

Hiroshima University, July 22 - July 26, 2006

MAIN SPEAKERS:

J. Scott Carter (University of South Alabama, USA)

Gyo Taek Jin (Korea Advanced Institute of Science and Technology, Korea)

Louis H. Kauffman (University of Illinois at Chicago, USA)

Toshitake Kohno (The University of Tokyo, Japan)

Masanori Morishita (Kyushu University, Japan)

Tomotada Ohtsuki (RIMS, Kyoto University, Japan)

Colin Rourke (University of Warwick, UK)

Masahico Saito (University of South Florida, USA)

Vladimir Vershinin (Universite Montpellier II, France)

ORGANIZING COMMITTEE:

Chairman: S. Kamada (Hiroshima University)

J. Scott Carter (University of South Alabama)

T. Kanenobu (Osaka City University)

L. H. Kauffman (University of Illinois at Chicago)

A. Kawauchi (Osaka City University)

T. Kohno (The University of Tokyo)

T. Matumoto (Hiroshima University)

Y. Nakanishi (Kobe University)

M. Sakuma (Osaka University)

Local Organizers:

H. Doi (Hiroshima University)

N. Kamada (Osaka City University)

A. Kowata (Hiroshima University)

H. Tamaru (Hiroshima University)

T. Tanaka (Osaka City University)

M. Teragaito (Hiroshima University)

K. Saji (Hokkaido University)

T. Yamauchi (Hiroshima University)

Sponsors

The 21st century COE program "Constitution of wide-angle mathematical basis focused on knots" (program leader Akio Kawauchi); JSPS in connection with Seiichi Kamada, Toshitake Kohno, Shigenori Matsumoto, Takao Matumoto, and Makoto Sakuma.
